

## Oceanside Village Initiative

# VILLAGE VOICES

### Community Comments (*continued*)

**Susan Love (Violet Street)** *“Unfortunately, this is a bad time to be adding more layers of regulation, taxes and expense to our lives. We need to be focusing on our bigger picture government right now before funding and personnel are cut even further at the State and County levels. I am not in favor of a small group of Oceansiders being in charge of the design and character of the community, and also I see a real problem with collecting and spending all of these tax dollars on another set of government overhead. The residents have voted their displeasure once. Why pursue this? Let’s have ONA work more efficiently with the County.”*
